Annual Magnetic Change
05′ or 1½mils West

1000 METRE UNIVERSAL TRANSVERSE MERCATOR GRID
Black numbered lines indicate the 1000 metre Universal Transverse Mercator Grid Zone 20
Clarke 1866 Spheroid. The last three digits of the Grid numbers are omitted.

Grid Zone Designation 20P	To give a standard reference on this sheet to nearest 100 metres			
100,000m Square identification PN	Sample point:- △ 2027 M 17			
	1 Read letters identifying 100,000 metre square in which the point lies	PN		
	2 Locate first VERTICAL grid line to left of point and read LARGE figures labelling the line either in the top or bottom margin or on the line itself Estimate tenths from grid line to point		82 4	
Ignore the smaller figures of any grid number: these are for finding the full co-ordinates. Use only the LARGER figures of the grid number Example:- 750,000	3 Locate first HORIZONTAL grid line below point and read LARGE figures labelling the line either in the left or right margin or on the line itself Estimate tenths from grid line to point			15 3
	Example	PN 824153		
	If reporting beyond 9°N-S or 18 E-W prefix Grid Zone Designation as	20PPN824153
